

SOUMYA GHOSH

Software Developer

☎ +91-8967867874 ✉ ghoshsoumya183@gmail.com **in** [LinkedIn](#) </> [LeetCode](#)  [GitHub](#)

Summary

Aspiring Software Developer with hands-on experience in full-stack development using JavaScript, React.js, Node.js, and MongoDB. Skilled in building scalable web applications, implementing efficient data structures and algorithms, and debugging complex issues. Eager to contribute to real-world projects while continuously improving technical and problem-solving skills.

Technical Skills

Programming Languages: Java, C++, Python

Backend: Express.js, Node.js

Frontend: React.js, HTML/CSS, JavaScript, Bootstrap, Tailwind CSS

Databases: MongoDB, MySQL

Tools & Platforms: AWS, Git, VS Code, MS Excel, MS Word

Core Subjects: Data Structures and Algorithms, Operating Systems, DBMS, Networking

Experience

Web Developer Intern

March 2026 – April 2026

CodSoft (Remote)

Tools Used: HTML, CSS, JavaScript

- Built and deployed a responsive personal portfolio website using HTML, CSS, and JavaScript, showcasing 10+ projects and improving professional online presence with 100% mobile compatibility.
- Created 10+ responsive landing pages that improved load time by 35% and reduced mobile bounce rate by 25%, maximizing user engagement and device accessibility.
- Developed an interactive JavaScript calculator featuring real-time input validation and modular architecture, reducing calculation errors and supporting 20+ mathematical operations with improved code maintainability.

Projects

Smart Expense Tracker | MERN Stack

April 2026 – May 2026

- Built a full-stack expense tracking web app using MongoDB, Express.js, React.js, and Node.js to help users log, categorize, and monitor daily spending.
- Applied user authentication using JWT and bcrypt for secure login and registration functionality.
- Generated interactive dashboards with charts (Pie, Bar) to visualize spending patterns by category and date range.
- Enabled PDF report generation of monthly expenses, allowing users to export and archive their financial summaries.

AI Code Explainer | React.js, Node.js, Nebius API

March 2026 – April 2026

- Developed an AI-powered web application that explains programming code in simple natural language using the Nebius API.
- Implemented features like code input, syntax highlighting, real-time AI-generated explanations, and multi-language support for a better learning experience.
- Designed a responsive and interactive user interface using React.js with seamless API integration, improving usability and user engagement.

Awards & Certifications

- **Angular Certificate – Infosys (2025):** Completed hands-on projects covering components, routing, services, and API integration to build dynamic single-page applications.
- **Full-Stack Development Bootcamp – Ardent Computech Pvt. Ltd. (2026):** Finished hands-on projects using the MERN Stack.
- **TCS CodeVita Season 13 (2026) -** Secured Global Rank 4981 in TCS CodeVita Season 13. Participated in one of the world's largest coding competitions, which enhanced my problem-solving abilities, analytical thinking, and competitive programming skills.

Education

BCA

JIS University, Kolkata

Graduation: June 2026

GPA: 9.21/10
