Summary

Software Developer with hands-on experience in full-stack web development using React.js, Node.js, Express.js, JavaScript, and MongoDB. Strong foundation in software engineering, problem solving, and scalable application design. Passionate about building efficient and user-focused solutions.

Technical Skills

Programming Languages: Java, C++, Python, JavaScript

Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Tools: Git, GitHub, AWS, VS Code, Postman

Core Subjects: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Experience

Web Developer Intern

March 2026 – April 2026

CodSoft (Remote)

HTML, CSS, JavaScript

- Built a responsive task management application with CRUD functionality, enabling efficient organization and tracking of daily activities.
- Integrated 10+ interactive frontend modules using JavaScript, increasing application responsiveness and reducing unnecessary page refreshes.
- Optimized layouts and reusable UI components, achieving seamless performance across desktop and mobile devices.
- Resolved 20+ functional and interface issues through testing and debugging, contributing to application stability and code quality.

Projects

Smart Expense Tracker — MERN Stack

April 2026 – May 2026

- Developed a full-stack expense management platform to record and analyze spending activities.
- Implemented secure authentication and authorization using JWT and bcrypt.
- Added expense categorization and filtering capabilities for spending analysis.
- Integrated Pie and Bar charts to generate financial insights.
- Enabled PDF export for downloadable reports.
- Connected frontend and backend using REST APIs for real-time updates.

AI Code Explainer — React.js, Node.js, Nebius API

March 2026 – April 2026

- Built an AI-powered platform that transforms source code into simplified explanations.
- Integrated Nebius API for contextual code interpretation and response generation.
- Added syntax highlighting and structured output formatting.
- Designed a responsive interface to enhance accessibility and usability.
- Created backend APIs for request processing and efficient data flow.
- Applied validation and error handling to increase reliability.

Awards & Certifications

- **Angular Certification – Infosys (2025):** Completed training on components, routing, services, and API integration.
- **Full-Stack Development Bootcamp – Ardent Computech Pvt. Ltd. (2026):** Completed project-based training using the MERN stack.
- **TCS CodeVita Season 13 (2026):** Achieved Global Rank 4981 through strong analytical and coding performance.

Education

Bachelor of Computer Applications (BCA)

JIS University, Kolkata

Graduation: June 2023 - June 2026

CGPA: 9.33 / 10
